MRS. KAUFMANN WAS CONVICTED OF FIRST DEGREE MANSLAUGHTER

Was Accused of Murdering Young Foreign Girl Employed by Her As Domestic.

HER SON FORMERLY A DENISON UNIVERSITY STUDENT

When Words of Conviction Were Pronounced She Showed Deep Dejection—Attorneys Will File Motion for New Trial in South Dakota.

Flandreau, S. D., June 21.—Mrs. Moses Kaufmann, wife of a wealthy Sioux Falls brewer, was last night found guilty of manslaughter in the first degree, the charge being that she tortured to death Agnes Polreis, a 16-year-old servant girl in her employ. The case has been bitterly fought, with all the wealth and social and business prestige of the Kaufmann's pitted against the sentiment that justice be done, although the victim was a poor foreigner, practically unknown and friendless.

The sudden verdict was a great surprise and Mrs. Kaufmann and her relatives were stunned. Her attorneys immediately moved for a new trial and arguments to that effect will be heard at Yankton October 10. October 21 has been set for passing sentence upon Mrs. Kaufmann, her bond of \$25,000 standing meanwhile. This will insure her liberty until October 21.

The minimum penalty for the crime is four years' imprisonment at hard labor. The case went to the jury yesterday evening, the instructions of the Court being extremely lengthy and impartial. The defense sought to show that the girl died of diabetes and denied everything in the cruelty charges. The trial ordinarily would have taken place in Sioux Falls, but the defense by hard work secured a change of venue on the ground that sentiment in the woman's home city was so rabid that Mrs. Kaufmann could not be given an impartial hearing. Accordingly the case was sent here. The people of Flandreau knew only the

general details of the alleged murder when the trial was opened and had no particular leaning one way or the other, but the evidence against Mrs. Kaufmann has been so sensational that the feeling now is markedly bitter.

Agnes Polreis was compelled to earn a living and in seeking employment encountered Mrs. Kaufmann. It is charged that soon after she took the position Mrs. Kaufmann began a series of abuses that eventually caused the girl's death.

Peter Erickson, formerly a hired man with the Kaufmann family, supported the general theory of the alleged horribly brutal treatment of Miss Polreis by Mrs. Kaufmann. He said that one day he saw Mrs. Kaufmann pouring boiling water on the girl after she had fallen to the floor from sheer exhaustion.

Witnesses, including physicians and nurses, testified that Miss Polreis had sustained several wounds on the head, three at the base of the skull, and cuts and bruises sufficient to have caused her death. The wounds on the shoulder blade were gangrenous, according to the trained nurse who attended Agnes. It also was shown that Mr. Kaufmann jabbed a broomstick into the maid's ribs and caused her to bathe her feet in ashes soaked with water, forming lye, which proved painful.

Mrs. Kaufmann's son was formerly a student of Denison university.

Mrs. Kaufmann accused of killing her son's servant.

Miss Polreis the dead girl.

MR. CLEVELAND'S CONDITION IS NOT ALARMING

Princeton, N. J., June 21.—According to a statement issued from the home of former President Cleveland, the alarming reports sent broadcast concerning the condition of Mr. Cleveland are practically groundless. The former president is suffering from an attack of acute indigestion, but no operation has been performed and none was contemplated, the statement says. The statement adds: "The report that an operation has been performed upon him for the removal of a malignant growth is absolutely untrue. No operation was contemplated. Mr. Cleveland is in no danger and will be around again in a few days." Mrs. Cleveland is authority for the foregoing statement. Mr. Cleveland has been a sufferer from indigestion for a long time.

DEMONSTRATIONS

IN FAVOR OF HOME RULE WILL BE HELD IN IRELAND IN SHORT TIME

To Impress Upon the Minds of the English Statesmen That They Want Autonomy.

Dublin, June 21.—Sixty-four representatives of the districts of 17 members of the house of commons attended a meeting of the national directory of the United Irish league. John E. Redmond presided, and the object of the meeting was to take steps to organize an Irish protest against continual denial of self-government for Ireland. Great unity of purpose was shown and it was resolved to hold a series of monster popular demonstrations throughout Ireland to endorse the declaration of the national convention that nothing short of national autonomy will satisfy the Irish people and lead to peace and contentment, as well as to impress on the minds of English statesmen the necessity of finding some acceptable settlement of the question.

B., June 21.—Three men perished, the stewardess and several other women escaped with bad burns and several members of the crew were hurt when fire turned the steamer Crystal Stream into a seething furnace today. Most every one of the ship was asleep and the victims were shut in by walls of fire.

DAN HANNA'S WIFE GETS HER DIVORCE

Cleveland, June 21.—Mrs. Daisy Gordon, Maude Hanna, was today granted a divorce from Dan R. Hanna, son of the late Senator Hanna, on charges of cruelty and neglect. She was given the custody of the child. Alimony was settled out of court. It is the second divorce for each one.

SERVED SALAD BUT ATE NOTHING STILL FASTING

Belleville, Ill., June 21.—Dr. I. J. Eales, who began a fast of 20 days to test his theory that his health would thereby be benefited, completed the stipulated time. He decided, however, not to eat anything until his appetite demanded food, and will continue to fast until he gets hungry. The fast has reduced his weight from 190 to 170½ pounds. Last night he attended a banquet, snuffed the appetizing viands, and served the chicken salad himself, but ate nothing.

MUTINY STARTS IN FRENCH ARMY WHICH IS SERIOUS

MANY OF REGIMENTS COUNTED AS LOYAL JOIN THE RIOTERS.

PARIS IS IN A FERMENT

Of Excitement Which Followed the Riots and Situation May Develop Revolution.

Paris, June 21.—Mutiny is sweeping over the entire army of southern France, according to reports received by the minister of war today. Following the desertion of the Seventeenth regiment this morning, one-half of the Eighty-first regiment was sent against the mutineers but joined them. Later a report says that the One Hundredth regiment, which has been in a state of fomentation, has mutinied and is marching toward Larzac.

An unconfirmed report received late this afternoon says that the Thirtieth Cuirassier troops, which had been counted as loyal beyond a question have mutinied, and are marching toward Narbonne to take sides with the rioters. Soldiers are revolting rather than to take sides against their countrymen in the riotings in the wine-growing districts.

The situation is so serious that a special meeting of the cabinet has been called to take measures to meet the crisis. It is admitted that unless the revolt is crushed at once it may develop into a revolution.

In the fighting at Narbonne last night half dozen rioters were killed and scores were injured in battle with soldiers.

A young girl who was leading the workmen was shot through the heart. The workmen regard her as a martyr and her body is lying in state.

The prisons at Narbonne are crowded to suffocation. Every time an arrest is made the troops were forced to fight to retain the prisoners.

Many rioters are armed, having bought an entire stock of gun stores before the troops could close them.

At Perpignan today a mob attempted to storm the jail and release some of the prisoners. The soldiers beat the rioters back. Paris is a ferment today. Opposition papers are foaming at the government and declaring the cabinet responsible for the bloodshed and disorder.

KIDNAPED CHILD FOUND MURDERED

West Chester, Pa., June 21.—The body of Mary Nowlin, the five-year-old girl who has been missing since Sunday, was found buried in the back yard of her stepfather's home today. The stepfather, Edwin A. Lewis, has been arrested pending an investigation.

MAYOR SCHMITZ OF SAN FRANCISCO INCURABLY ILL

ASKS RELEASE ON BAIL AS IMPRISONMENT WOULD CAUSE HIS DEATH.

A CONSPIRACY IS ALLEGED

In Which the Interests of Spreckels Would be Furthered by Mayor's Prosecution.

San Francisco, June 21.—In a petition filed in the district court of appeals by Mayor Schmitz's attorneys some sensational statements are made. The release of the mayor on bail is sought.

Among the allegations made is a declaration by his attorneys that the mayor is suffering from an incurable disease and that imprisonment in jail will cause his death. It is understood that the disease referred to is an affection of the kidneys, and that it has advanced to a serious stage.

The petition alleges that the section of the penal code under which the mayor was ordered into custody is unconstitutional; that the petitioner is deprived of his liberty without due process of law. The petition further alleges that imprisonment of the mayor or is in furtherance of a conspiracy by Rudolph Spreckels and others through a coercive power over the board of supervisors, who have confessed their guilt of bribery, to usurp the office of mayor and secure full political control of the affairs of San Francisco by removing all appointive officers of the city by arbitrary, illegal and revolutionary means. By reason of grave and serious questions that must arise from carrying out such a scheme the petitioner urges that the facts alleged constitute such extraordinary circumstances as will justify the court as a matter of discretion in admitting the petitioner to bail.

J. D. ROCKEFELLER PAID HIS FINE

New York, June 21.—John D. Rockefeller's automobile, in which Mr. Rockefeller was being hurriedly driven to his country home, was stopped by a constable at Elmsford and the chauffeur was subsequently fined \$25 for exceeding the speed limit. Mr. Rockefeller paid the fine. According to the constable the machine was making 30 miles an hour when he caught its speed over a measured course.

N. D. Cobin, general manager of the Macon Grocery company, and one of the wealthiest citizens of Macon, Ga., committed suicide by shooting himself the cause.

MRS. WILLIAM ASTOR'S GRANDSON AND WIFE ARE TEMPORARILY ESTRANGED

Mrs. H. Coleman Drayton

NEW YORK, June 21.—Society was surprised to hear of what is apparently, at least, a temporary estrangement between Mr. and Mrs. Henry Coleman Drayton, whose married life was begun under brilliant and happy auspices two years ago. Mrs. Drayton, who is a beautiful young woman, is a daughter of the late Benjamin Knower, a prominent merchant. Mr. Drayton is the son of J. Coleman Drayton and a grandson of Mrs. William Astor. Reports that there had been a disagreement between them first gained circulation more than two months ago, when Mrs. Drayton left the apartments she and her husband had been occupying in the Hotel Renaissance and went to her mother's home.

PROMINENT NEWARK MEN

Andrew Crilly has been here since 1883, coming from Jacksonville, where he had previously been engaged in teaching the young idea how to sprout, and dispensing justice in looking township. He first acted as deputy sheriff under Geo. W. Hall, then was appointed sheriff and served a year and eight months. Afterward he was elected for two terms, serving as actual sheriff five years and eight months. He was justice of the peace

of Newark township for one and one half terms, and resigned to accept the mayoralty of Newark to which he had been elected, and served with credit for two years and eight months. He has always shown great executive ability when working as a servant of the people and his record substantiates this, and is a compliment to his popularity with the masses. It is unnecessary to state that he is an old time Democrat.

The "Squire" as he is familiarly called, is a booster for Newark all the time, and took a prominent part in its early development.

He is fraternally and socially right in it, belonging to the Masonic order, K. of P., I. O. O. F. and the Eagles.

PROSECUTION IS NOW THROUGH IN HAYWOOD CASE

ARGUMENTS MADE ON A MOTION TO DISCHARGE THE DEFEND—

WILL BE HEARD BY ATTORNEY DARROW WHEN HE OPENS THE CASE FOR THE DEFENSE.

A GIGANTIC CONSPIRACY

Will Be Charged by Attorney Darrow

Boise, June 21.—The prosecution in the Haywood case closed this morning with the introduction of a few minor witnesses. The court then announced that at 1:30 today it would hear a motion for Haywood's discharge on the grounds that the state had failed to make its case. Both sides have prepared elaborate arguments and it is expected it will take nearly all afternoon for the arguments. It is anticipated the motion will be denied.

In this case the defense will open Monday. Attorney Darrow expects to consume the entire morning explaining the troubles in the mining regions; how the Federation operates and incidentally will charge the Pinkerton agency with planning a gigantic conspiracy to crush the Western Federation by having its prominent officers charged with a crime on manufactured evidence. The defense has 110 men here who will contradict the state's witnesses.

Boise, Ida., June 21.—The prosecution in the Haywood case offered testimony to show a direct connection with the store of George Pettibone in Denver and Harry Orchard, at work on the Bradley crime in San Francisco, and promised to make the connection with Pettibone personally by handwriting experts. Original records of the Pacific Postal Telegraph company were produced showing that in September and October, 1904, remittances of \$97.50 and \$48 respectively were made, the first by "J. W. B.," and the second by "P. B. B.," from the street, in Denver, the address of Pettibone's store, to "H. Green," in care of Peter L. Huff, in San Francisco. W. V. McCartney, who was cashier of the Denver office of the Postal Telegraph company in the fall of 1904, came here from Cheyenne to identify and explain the records that showed the remittances. The state also endeavored to show that while at Silver City, Ida., in 1899, Haywood declared that Steunenberg was a tyrant and a monster who should be exterminated, and by James Kirwan, acting secretary-treasurer of the Western Federation of Miners, that Jack Simpkins and Marion Moore were made members of the executive board of the federation in 1905, and that control of all expenditures made by the organization vested in the president and secretary-treasurer.

For the rest, it was a day of reading, with Senator Borah as first reader. Judge Wood admitted many of the strongly worded articles of the Miners' Magazine, in which Frank Steunenberg was bitterly denounced, and as one after another they were let in, Borah read them to the jury. Attorney Darrow stated that directly the state closed, he and his associates would move the court for an instruction directing a verdict of acquittal. To practically every piece of evidence offered during the day the defense first offered objection, then made a motion to strike out, and lastly took an exception on the record.

A BIG INDIAN TURNED DOWN BY PRES. ROOSEVELT

Oyster Bay, N. Y., June 21.—That it is difficult to disturb President Roosevelt's vacation at Sagamore Hill was demonstrated here in the disappointing "no" served out by Secretary Loeb to Frank Philbrick, a six-foot Cheyenne Indian, direct from North Dakota, with a matter of great importance to himself which he wished the president to adjust. Philbrick departed for Washington to consult with Indian Commissioner Leupp, with the firm belief that if he could only have gotten his name to the president he would have been seen. He said he had worked for the president on his ranch and had known Mr. Roosevelt for the past 13 years.

OLD MINER IS KILLED.

Corning, June 21.—Jack Gibbs, 73 years old, one of the oldest miners in Perry county, was run over by a Z. & W. passenger train near Congo and killed. His head was severed from his body. He was returning home from spending the evening with his friends when run over.

CONTRACTOR CHAS. RICHARDSON IN A STREET CAR ACCIDENT NARROWLY ESCAPES DEATH

An Air Brake Expert in Showing His New Device on West Church Street Lost Control of His Car

And Car Jumped the Track Catching Richardson's Rig Which Was Dashed Against a House Instantly Killing His Horse.

The most peculiar street car accident which ever occurred in this city, nearly cost the life of Charles C. Richardson, contractor and builder, of 227 Johns street. The accident occurred at Eleventh and West Church street about 4:30 o'clock Thursday afternoon.

There is a difference of opinion regarding the cause of the accident but the story of an eye witness to the affair gives it as follows.

The traction people have recently been equipping their interurban cars with a new air brake device, the Westinghouse automatic air brakes. An expert has been at the car barns for several weeks superintending the experiments and was trying the brakes which were recently attached to car No. 66.

The car had been running back and forth between Eleventh street and the car barns during the late afternoon and several nice stops were made with the new brakes.

The test was completed, and according to the officers of the company, the operator was about to turn the car by running onto Eleventh street and back on Church street and thence to the car barns.

Church street, approaching the Eleventh street switch. The eye witness says that the car was going at a good speed and that as the car neared the switch, a air whistle was sounded frantically, a number of blasts being sounded.

The big motor crased through the switch, the front truck continuing east on Church street, while the rear trucks split the switch point and whirled around the Eleventh street curve.

The momentum of the car was so great that the rear trucks left the rails when about half way round the curve and the wheels ran across the pavement and crashed against the grocery store at the Eleventh street corner.

Charles Richards, the injured man, was driving north on Eleventh street, and was about to turn east on Church when the accident occurred. The crash caught his horse and wagon between the car and the building. A big pile of paving brick stacked up on the sidewalk made the accident more complicated. The horse was instantly killed, its neck being broken and head being crushed.

The fact that Mr. Richardson was caught unawares and had no time to jump probably saved his life. The wagon stopped the oncoming car and

GOVERNORS OF OHIO

WILLIAM BEBB—1847-1848.

William Bebb was governor during the Mexican war, 1847-48, being elected by the Whig party, and after his first term expired he retired to private life. He was a lawyer, noted for his eloquence and his touching appeals to the jury. He moved to Rock River, Ill., in the early fifties and began the cultivation of his large farm. He was of Welsh stock, and he felt that he must help his countrymen. He disposed of his farm, went to Wales, organized and brought to America a colony of Welsh, who settled in Scott county, Tenn. This colony was broken up by the civil war. Mr. Bebb was appointed pension examiner under Lincoln and was a warm supporter of Grant. He was a very peculiar but broad minded and conscientious man, doing much for the commonwealth in which he lived. After the breaking up of the Tennessee colony he returned to Illinois, where he died at his home in Rockford in 1873.

THOMAS H. SITES
WRITES TO FRIENDS
FROM THE WEST

The Advocate presents today for the perusal of its readers, extracts of letters received by the family and friends of Mr. Thomas H. Sites, who has been traveling through the west for the past thirty days.

Salt Lake City, Utah, June 9.
I arrived here this evening at 9 p. m., after a ride of two days and one night from Portland. It was a fine ride and the scenery up the Columbia river is grander than the Hudson or the Rhine for one hundred miles to the Dalles, the head of navigation. This place has improved a great deal since I was here, particularly the business portion. I have not yet been off the main thoroughfare. Tomorrow I will take a trip out to Salt Lake and visit the temple and tabernacle. I enclose you a few views. The ride down this Utah valley is simply grand, for it is a veritable garden all the way, and the mountains on either hand are covered with snow, while in the valley vegetation is as far advanced as with us. They raise the

finest peaches, pears and plums here that are produced in the world. I saw peaches sell when I was here before at 30 cents a basket that were as large as my fist.

I made the acquaintance of a gentleman and his wife who have proven to be very companionable; they came all the way from Portland with me. The weather is still simply delightful, not a drop of rain since I left home. The gentleman that I mention above is in love with Los Angeles and says that Seattle comes next, but I think that Seattle is way ahead in every thing except climate and fruits.

It is rather chilly up there and I had to wear an overcoat all the time. Here's where I stop, take a smoke and go to bed.

June 11—I am at the Salt Air bathing pavilion, the great palace of amusement on Salt Lake. In the second story of this building is the largest dancing hall I have ever seen. It is 200 by 300 feet and the sides are of glass next to the lake. The structure is two and one-half miles out in the lake and it draws a fine business. I took in a grand concert at the Tabernacle today and will take in the city next.

After hearing the evidence in the case the court granted the plaintiff a decree of divorce on the grounds alleged, and made the minor children wards of the court, giving the mother the temporary custody of them, however.

MUSIC TEACHERS
CONVENTION

Fine Series of Programs and Papers Presented Before a Large Audience.

Granville, O., June 21.—The second day of the Music Teachers' convention in Granville opened with about 100 teachers in attendance, besides the many friends who are interested in music. Altogether the hall was well filled and much enthusiasm was manifested. While there were some disappointments through the failure of one or two men to appear who were on the program, yet their places were very acceptably filled and everything went off very smoothly.

The day opened with the appointment of the committees on nominations, resolution and auditing; the personnel of these is of such a high standard as to make sure the satisfactory planning of the future work of the association. Then followed the paper on the work of the Women's Clubs in Music by Miss Musson of Akron. The amount of work accomplished as shown by Miss Musson was very gratifying and bade fare to make the men work hard to surpass it. The program as furnished by the Women's Musical Club of Columbus, was excellent, and Miss Brennan is especially to be congratulated on her work. Miss Rinderfoss is a brilliant player and much may be expected of her when she returns from her study in Europe. This was followed by an open discussion on Public school music presided over by A. J. Gantvoort of Cincinnati. This in itself is a sufficient guarantee of its interest. Andrews' paper on MacDowell is to be commended because of its brevity, its lucidity and its interest. The program given by Mr. and Mrs. Werthner and Mr. Vancleve of Cincinnati was very valuable to musicians since it were heard a sonata, a concerto and a number of MacDowell's songs. Mr. Werthner's playing was characterized by great mastery of tonal effects, while Mr. Vancleve did extraordinary work with the concerto, accompanied on a second piano by Mr. Staderman of Cincinnati. Mrs. Werthner though singing only short songs, at once proved herself a finished singer and it is to be regretted that she does not appear more often on the program.

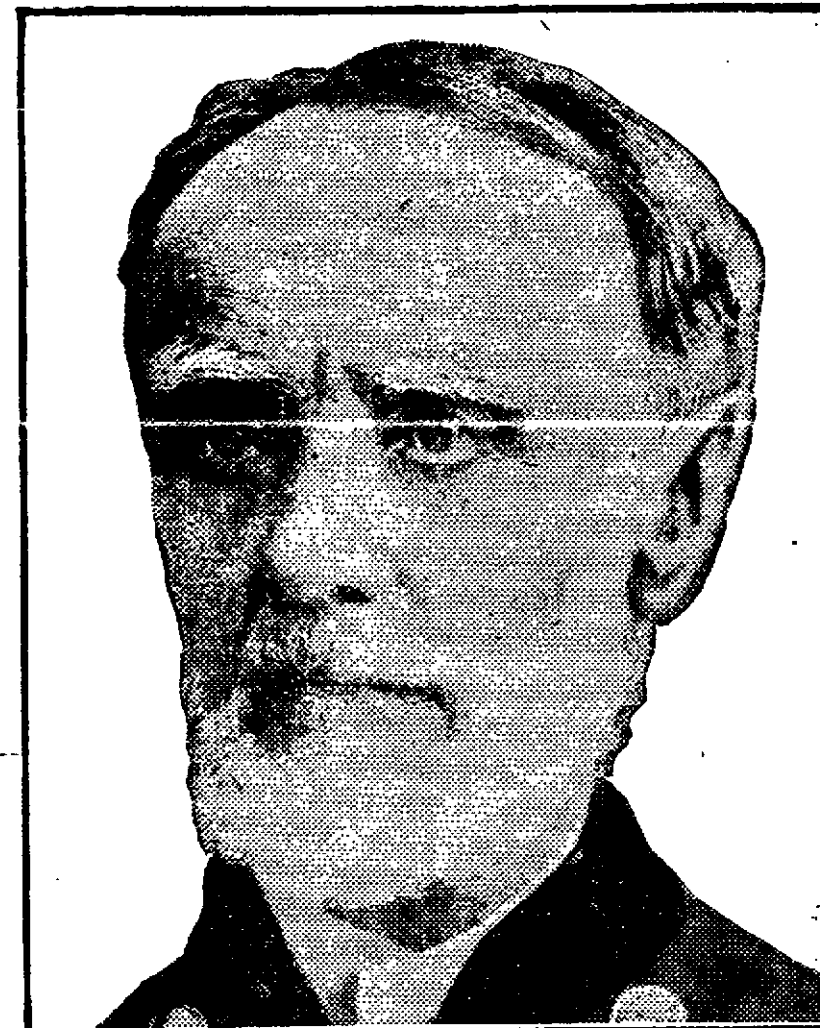

The discussion of Church Music by Mr. Percival of Toledo and Mr. Nold of Newark was well handled. Mr. Nold's paper creating much discussion. Mr. Nold contends for the highest ideals—a position he has maintained throughout his service as organist in Trinity church in Newark.

The afternoon session closed with an organ program by Mr. Clemens of Cleveland. It is needless to criticize this performance; Mr. Clemens is one of the greatest organists in America, and, as such, is beyond fault finding. The day closed with a banquet at which there were good things to eat and good things to hear as well.

GRANVILLE NEWS

Granville, June 21.—The board of Education held an adjourned meeting on Thursday night for the purpose of electing a superintendent of the public schools to succeed Prof. L. W. "Great Christian Work"

GENERAL HAMILTON.

Says Gen. Alexander Hamilton, namesake and descendant of the great American patriot and signer of the Declaration of Independence, who was cured of Chronic Catarrh and serious complications from wounds received in the Civil War by taking Duffy's Pure Malt Whiskey, and says that giving suffering humanity such a wonderful medicine is a great Christian work.

"For many years I suffered from Chronic Catarrh and serious complications as a result of wounds received in the Civil War. After trying almost every remedy without results, I began four years ago to use Duffy's Pure Malt Whiskey. I am in my ninety-second year, feel strong and vigorous, possess all my faculties and my catarrh has entirely disappeared. Duffy's Pure Malt Whiskey is the greatest cure in the world for a broken down system."

"It has revived many of my friends who were seriously ill. I have induced many neighbors and parties throughout the country, even to the West Indian Islands, to use Duffy's Pure Malt Whiskey, and all join in singing the praise of Duffy's Pure Malt Whiskey for the benefit they have derived from it."

One leading mechanic in plumbing and tin work told me about one year ago he would have to give up business, I urged him to use Duffy's Pure Malt Whiskey, and he now tells me he is as vigorous as ever from using Duffy's Pure Malt Whiskey, and full of business.

You are doing a great Christian work by giving such a wonderful medicine to suffering humanity. I use two bottles a month and would not be without it at any cost."—Alexander Hamilton, Tarrytown, N. Y., March 28th, '07.

Duffy's Pure Malt Whiskey

Danderine

GREW MISS CARROLL'S HAIR

AND WE CAN

PROVE IT

Beautiful Hair At Small Cost.

WITHIN the last decade great and rapid strides have been made in Materia Medica. Many diseases that were considered incurable fifteen years ago are now cured in a few days, and in many cases prevented altogether. The scientists of late years have been delving for the cause, the foundation, the reason and the starting point of disease, fully realizing that the actual and true cause must be ascertained before the remedy can be located. Hair troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp, and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would do no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment, and when baldness occurs the scalp has simply lost all of its nourishment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions).

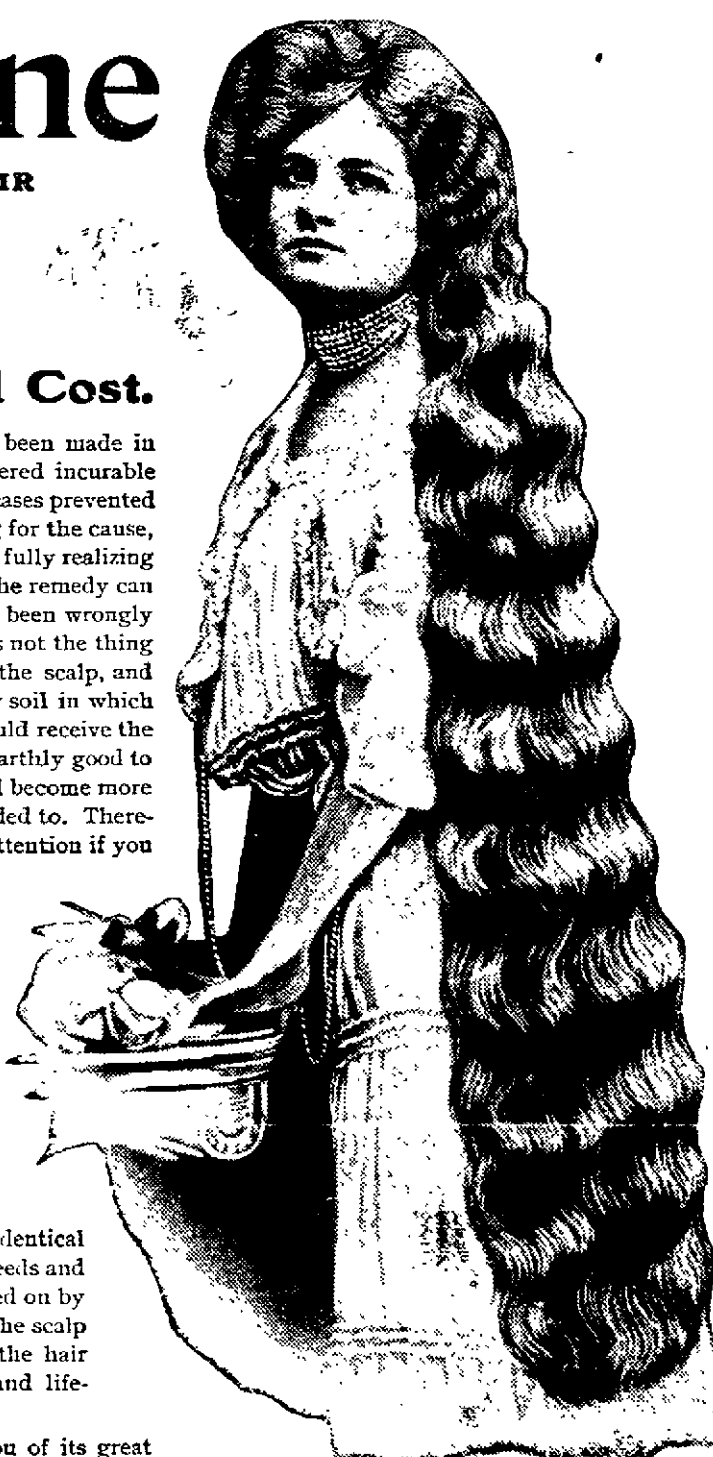

The natural and logical thing to do in either case is, feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Dr. Knowlton's DANDERINE

is the only remedy for the hair ever discovered that is identical with the natural hair foods or liquids of the scalp. It feeds and nourishes the hair and does all the work originally carried on by the natural nutrients or life-giving juices generated by the scalp itself. It penetrates the pores of the scalp quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities.

One twenty-five-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself. Now on sale at every drug and toilet store in the land. Three sizes, 25c, 50c and \$1.00.

FREE To show how quickly Danderine acts we will send a large sample free by return mail to any one who sends this advertisement to the Knowlton Danderine Co., Chicago, with their name and address and 10 cents in silver or stamps to pay postage.

THINKS BOWSER CRAZY

Mother-in-law Drops In on Him
and Is Given a Welcome.

IT MADE HER SUSPICIOUS.

Fearing He Was Planning Attempt to
Poison Her, She Went to a Hotel to
Sleep, as She Did Not Want to Die
Just Yet.

[Copyright, 1907, by Homer Sprague.]
Mrs. Bowser had received a letter
from her mother stating that she would
arrive on a certain date and by a cer-
tain train for a brief visit—just long
enough to straighten Mr. Bowser out
and make him understand who was
boss of the roost. Not a word had
been said to Mr. Bowser about the let-
ter. On various occasions, when told
that the mother-in-law was to arrive,
he has expressed his opinion of the
"brand" in language both forcible and
jagged. How he discovered that the
event was coming off will always be
his secret, but discover it he did. In-
stead of arriving home from the office
at the usual hour he was twenty min-
utes late, and to Mrs. Bowser's in-

a fine bouquet. She accepted it with
fluttering heart, and when he meekly
sat down to take the curtain lecture
she was always sure to give him. It
was a glad relief to her when he said
he guessed he'd drop into the club for
an hour or so. With the slightest en-
couragement on her part he would
have kissed her as he went out. When
he was clear of the house she re-
turned to her daughter and de-
manded:

"Now, then, how long has this thing
been going on?"
"Do you mean Mr. Bowser?"

Noticed a Change.
"Of course I mean Mr. Bowser.
When did you first notice the change
in him?"

"Mother, Mr. Bowser is all right.
He's just the same as other husbands.
He has his good spells and his bad
ones. Sometimes if he finds a halpin
on the floor or a broken dish in the
back yard he'll stand up and scold and
jaw for half an hour and tell how we
are going to the poorhouse. Again, I
might break three or four windows
and he'd have nothing to say. You
have happened to hit him with one
of his good spells on."

"It may be so; it may be so," mut-
tered the mother as she shook her
head in a doubtful way. "Does he
keep an ax down cellar?"

"I believe there's an old ax down
there."

"Then tell the cook to get it and
hide it. She should also hide the
butcher knife. Have you paris green
or rat poison in the house?"

"Not a bit. You don't suppose—"
"Sarah, you listen to me. Samuel
may have what you call one of his
good streaks on, or he may be as crazy
as a bedbug and dissembling for a
certain object. That object is my
death. I have made him sit up and
take notice. I have made him sit
down and shut up. I have bluffed
him out of his boots. Don't you forget
that he would like to get even with
me. Suppose he brings home poison
with him? Suppose he sets the house
afire tonight and rescues you and
leaves me to perish in the flames?"

She Was Suspicious.

"Now, mother, you are talking as if
you were crazy yourself," chided Mrs.
Bowser. "No man is in love with his
mother-in-law, but they generally re-
spect them. You have given Mr. Bow-
ser many a hard rub, but I am sure
he bears no enmity."

The mother-in-law walked over to
the telephone and called up the family
doctor and asked:

"Doctor, what are the first symptoms
of insanity in a man?"

"Just what do you mean?" was ques-
tered in reply.

"I am Mr. Bowser's mother-in-law."

"Yes, I have heard of you."

"I arrived here this evening."

"Yes."

"Mr. Bowser found out some way
that I was coming, and he was at the
depot with a carriage to meet me."

"You don't say! That's the first
time I ever heard of such a thing in
all my life."

"And wouldn't you consider it a sign
of insanity on his part?"

"I should. The man must be as
crazy as a loon. When you go to bed
tonight double lock your door, pile all
the furniture against it and sit up all
night with a halpin in your hand."

"That settles it," said the mother-in-
law as she hung up the receiver. "Sarah,
I'm going to a hotel to pass the
night!"

"Why, mother!"

"No use to talk to me. I've felt that
my life was in danger from the mo-
ment I saw Samuel at the depot, and
now your own family doctor, who
knows him from head to heel, has con-
firmed my worst suspicions. I have
not come here to be murdered in my
bed!"

Half an hour later Mr. Bowser came
home. He asked for "mother," and
Mrs. Bowser replied:

"She's gone to a hotel for fear of
you."

"But what's the matter with me?"

"You are too good."

"Oh, ——" said Bowser as he sat
down with a sigh. M. QUAD.

Putting It Mildly.

"You resent that critic's opinions?"

"Not at all," answered Mr. Storm-
ton Barnes. "What I resent is his ex-
otic presumption in considering his
opinions of sufficient importance to
warrant their public expression." —

THIS AND THAT

A prominent Newark lady was once
very much amused at hearing an Eng-
lish lady traveling in this country pro-
nounce the name of Philadelphia.
With great precision the lady tourist
articulated it "Phi-lad-el-phia-a."

Up to date this spring three smart
Alecks who rocked the boat to throw
others out have found just retribution
in watery graves.

Nine out of ten men who ask if it
is hot enough for you, don't mean any
harm, and in many ways they are
good citizens.

Two Toledo men engaged in a
heated discussion as to which pro-
duces the better music, a dog fight or
two phonographs turned loose on op-
posite sides of the street. The crowd
that gathered sided with the dog fight
advocate.

Naturally enough the greatest con-
sumers of infant labor are the pro-
tected infant industries.

Opponents of Taft say he is too fat
for the Presidency and objections are
made to Fairbanks because he is too
lean. And the worst of all is that
nobody can be found who can lick the
Republican platter clean.

Warm weather may be considered
beneficial to the man who does busi-
ness on the shady side of the street,
but it may also be uncomfortable for
the customer that owes him.

So far as known Secretary Taft has
not stopped at a single western farm
home and asked for a glass of butter-
milk. In this regard both Roosevelt

and Fairbanks have a better record
than Taft.

The Russian Duma might have en-
joyed a peaceful career had it cul-
tivated the habit of doing nothing but
draw its salary.

SECRETARY TAFT ANSWERS BRYAN IN KANSAS SPEECH

Ottawa, Kan., June 21.—Secretary
of War William H. Taft addressed an
audience of 8,500 people in the Chan-
taqua tabernacle here, and he took
occasion to refer to the implied chal-
lenge of William J. Bryan, who in ad-
dressing the Chantaqua said he
wished Secretary Taft in his speech
here would give his views on the
trusts and other live political issues.
Secretary Taft said: "I beg to remind
the distinguished Nebraskan that
more than six months ago I had the
honor, before a large number of audi-
ences of American citizens, to discuss
the subject of the trusts, of the regu-
lation of the railroads and of the re-
vision of the tariff. When the ap-
propriate time shall come to renew the
discussion, I shall be glad to take my
humble part in setting forth those
views, again, which I have not changed
up to date."

Fairbanks Honored.

Chicago, June 21.—The honorary
degree of doctor of laws was conferred
upon Vice President Fairbanks by
Northwestern university. Mr. Fair-
banks was the guest of honor and the
principal speaker at the commence-
ment exercises. The vice president
also took an active part in the instal-
lation of Abraham W. Harris as pres-
ident of the trustees last February.

GOVERNOR HARRIS AN OLD GRADUATE AT COMMENCEMENT

OF THE CLASS OF 1907 OF MIAMI UNIVERSITY AT TOWN OF OXFORD, OHIO.

Body of Attorney Vincent Schwab Found in Ohio River--General Buckeye News.

Oxford, O., June 21.--To the 76 graduates at the thirty-third annual commencement of Miami university, Rev. Newell Dwight Hills of Brooklyn, N. Y., delivered the address here. Governor A. L. Harris of the class of 1860 was present, as also was Dr. C. T. McCaughan of Winterset, Ia., who graduated in 1837, being the oldest living alumnus of the university. Prior to the commencement exercises the cornerstone of the new auditorium and administration building was laid. The building is being built by the state at an expense of \$10,000.

Wanted on Arson Charge.
Columbus, O., June 21.--A requisition was issued by Governor Harris on the governor of Michigan for the return to Ohio of Daniel Baxter, who is under indictment in Williams county on the charge of arson. It is alleged in the indictment that Baxter employed Jack Page, the notorious firebug, to burn a house belonging to him in Williams county in order to secure the insurance. The requisition was issued on an opinion from the attorney general's office that Baxter could be extradited on the charge made in the indictment.

Shippers' Suits.
Libson, O., June 21 -- Suit for \$200,000 damages for alleged conspiracy to injure by freight discrimination has been entered here and in the federal court in Pittsburgh by the Ohio Silica company of East Liverpool, against the Pennsylvania Railroad company, the Pennsylvania Glass Sand company, of New Hamilton, Pa., and the Potters' Mining and Milling company of East Liverpool. The case can be heard in either court.

Body In River.
Cincinnati, O., June 21.--The body of Attorney Vincent Schwab of this city, who disappeared a week ago after making his will, was found in the Ohio river at the foot of Baymiller street. Schwab was afflicted with cancer of the throat, and as he had been told that death was only a question of a short time he is believed to have committed suicide. Being unable to take solid food he feared starvation.

Bloody Fray.
Marletta, O., June 21.--While quarreling over a line fence, Charles Miller procured a shotgun and attempted to kill his brother Albert. He shot at him twice, one charge tearing away his left hand. Archie Miller, the 15-year-old son of the wounded man, came to his aid with a shovel and struck his uncle over the head with it, inflicting a horrible wound.

Body of Ohio Middle Found.
Hampton Roads, Va., June 21.--The body of Midshipman Henry Clay Murfin, Jr., of Jackson, O., the last of the missing midshipmen of the battleship Minnesota's launch accident, was recovered in Hampton Roads by the steamer Ossining. The crew of the Ossining will receive a reward of \$50 offered by Admiral Emory.

Earl Must Die.
Sidney, O., June 21.--Frank A. Earl was found guilty of murder in the first degree. Earl had been on trial for the past 10 days for the murder of William B. Legg on the night of April 29. The jury deliberated two hours. The verdict, with no recommendation of mercy, means electric chair.

Shot By Italian.

PRINTING PLANT
Of Revolutionary Headquarters at Warsaw Raided By Police.

Warsaw, June 21.--The police discovered the secret printing establishment of the revolutionary headquarters here and confiscated thousands of revolutionary proclamations. The local authorities have recommended a pronounced reactionary policy, arresting persons and searching houses indiscriminately. Although Warsaw is very quiet, Cossacks patrol the streets continually and the newspapers are not allowed to discuss the dissolution of parliament or to criticize any bureaucratic acts.

STREET CAR ACCIDENT

(Continued from Page 1.)
left Mr. Richardson on top of the smashed vehicle.

He was struck by flying bricks and debris and rendered unconscious. As soon as possible the man was taken from the crushed and broken wagon and carried to a nearby porch and calls were sent for McCammet's ambulance, Bowers & Criss Bros' ambulance and the patrol wagon. All made quick runs and though only one was needed, it looked as though some of the men on the car might have been caught in the crash and injured badly.

Mr. Richardson was placed in McCammet's ambulance and taken to his home. Dr. P. H. Cosner was on the scene a few moments after the man was removed from the debris and made a hurried examination, but could find no injury that seemed serious. He accompanied the ambulance to Mr. Richardson's home and there dressed the man's injuries.

As stated above, his injuries consist of several scalp wounds, bruises and wounds about the body and arms and legs and probably a fractured rib.

When seen at his home Friday morning by an Advocate reporter, the injured man could not give a clear account of the affair and it seems that the affair happened so suddenly that he was not able to tell just exactly how it occurred.

COMPANY'S STATEMENT.

A company's official in speaking of the accident says that Mr. Mecklin, the Westinghouse expert in charge of the car, had completed his test, which was satisfactory, and was about to turn the car and return to the barns.

It is claimed that the man at the controller approached the curve with the car under full control and that the front trucks took the curve leading into Eleventh street all right but the rear trucks split the switch point and continued on the Church street rails. This pulled the front trucks from the rails on the curve and hurled the car against the building, where Richardson was caught.

It is further stated that the sounding of the whistle which was taken by an eye witness to mean that the car was not under control had been done all afternoon while the car was being tested.

Mr. Mecklin stated to the company, that as the car rounded the curve, he felt the rear trucks split the switch and leave the rails and that he yelled to Richardson to get out of the way, but that the man was driving slowly and was unable to escape from his perilous position.

The fact that the car had gone so far after leaving the rails caused some to remark that it could not have

been under control, but Manager Gibbs stated, in conversation with the Advocate, that when the trucks twisted as they did in this case, that the brake rods were broken and then the car by its own momentum would stop only when it "got ready."

MADE AGAINST IMMIGRANTS

Discrimination in Rates Said To Be
Practiced By Railroads.

ESSENCE OF A COMPLAINT

Commissioner of Immigration Prefers
Charges Against the Pennsylvania,
the Reading, the Jersey Central,
Baltimore & Ohio and Other Roads.
Improvement Anticipated.

New York, June 21.—To sustain a complaint that railroads having terminals in this city practice discrimination in fares against the immigrants bound to the west as compared to first-class passengers, evidence was given before a special examiner for the interstate commerce commission. The charges were preferred by Immigration Commissioner Robt. Wachorn. The railroads accused are the Pennsylvania, Baltimore and Ohio, Central of New Jersey, Lehigh Valley, Erie, Delaware, Lackawanna and Western and Philadelphia and Reading. Assistant United States Attorney Henry A. Wise prosecuted the complaint on the behalf of the immigration commission. The passenger rates for immigrants, he declared, are equal to those of first class passengers, yet the immigrant is allowed less accommodation and is enabled to travel less rapidly. Marked improvement in the conditions under which immigrants are transported from this city to western points is expected to follow the investigation into the question. Before the taking of testimony had been completed attorneys for the railroads requested an adjournment to enable them to consult with the complainant in relation to the final settlement of the points involved. This was granted, and it is believed that a satisfactory adjudication of the matter will be reached before the hearing is resumed on July 10.

CABINET OFFICER

Was a Witness in Case Involving a
Criminal Action Charging Con-
spiracy to Defraud.

Washington, June 21.—Beginning with Secretary Wilson the criminal court heard the testimony of a number of witnesses in the trial of E. S. Holmes, Jr., on the charge of conspiring to defraud the government by divulging confidential information concerning the cotton crop. The secretary said that he had not himself given advance information received by the bureau of statistics, but maintained his right to make estimates of his own and give them out at his pleasure. J. H. Mercer, a New York cotton broker, gave the facts relative to his partnership with F. A. Peckham, but declared he knew nothing of the interest of Holmes, Haas and Peckham or Van Riper in the concern.

FIVE KILLED IN AN AUTO WRECK

Naples, June 21.—A most appalling automobile accident occurred at Canale, about 100 miles distant from Naples, five men being killed. The motor car, which was going at a high rate of speed, ran into a rock and was demolished. Among the killed was Prince Pescara, a member of the Italian nobility and related to the Spanish royal house, on account of whose death the aristocracy of the whole of lower Italy will be in mourning.

St. Petersburg, June 21.—Forty-eight mutineers were condemned and shot at Kiev.

CUTTING'S FORMER WIFE IS TO WED WM. BRAMWELL

Miss Seligman first met Mr. Bramwell five years ago, when they headed the stock company at what was then Proctor's Fifth Avenue Theatre, where they appeared in the principal roles of many of the plays revived.

Dandelion

A SIMPLE REMEDY FOR LIVER TROUBLE AND BILIOUSNESS.

Guaranteed under the Pure Food and Drugs Act, June 20, 1906, Serial No. 257. The liver is a wonderful organ, always at work filtering, purifying and manufacturing ingredients necessary to life. It is the central laboratory of the body. It plays the part of a natural poison antidote. The poison contained in the decomposing food and waste of the body are arrested by it and rendered harmless. The liver is the seat of manufacture of bile, a fluid that keeps sweet the intestine and aids to digest food. Healthy bile is an antiseptic and when deficient or absent the contents of the bowels become putrid and full of poisonous matter. You can always keep your liver in a healthy condition by using Dr. Edward's Compound Dandelion Tablets or Pills. They act directly upon the liver and produce a healthy flow of bile.
